I wanted to write something to show my appreciation for everyone involved in my recovery from addiction. After reviewing my record, arrests and convictions with my attorney, I'm aware that if anyone is to appear a hopeless addict, it would be me. I wanted to confirm to you and everyone invold in my case that some people, no matter how bad they might look on paper, that given the chance, they will choose to change the way they live.

I want to thank you, the distict attorney and believe it or not, the officers who arrested me, who gave me the opportunity to change the path that I was on. I have been drug free for over a year now and I believe that the program that I chose has ALOT to do with it. I understand that there are alot of programs that have the same intentions, but I believe that Twin Town is onto something that can help countless people to achieve the same level of recovery that I have been blessed with.

To make a short story long, Thank You for not giving up on me and putting me where I know from experience, I would recieve no help, PRISON!

Sincerily,
